Neighborhood Trajectory

The indicative value and a flat local price trend sit against a regional index still rising modestly year over year, so the property reads as steady rather than accelerating. The indicative value and a flat local price trend sit against a regional index still rising modestly year over year, so the property reads as steady rather than accelerating.

That steadiness is qualified by an open-violation load a buyer would need to reconcile against the price story, while the flood read is benign. That steadiness is qualified by an open-violation load a buyer would need to reconcile against the price story, while the flood read is benign.
